

# Exercise 1: Broadcast Alerts

Responder Typer: *Patient Transport*

### Follow these steps:

- 1.Create a Responder with the *Responder Type: Patient Transport*
- 2.Go to the Responders Tab on the home page
- 3.Make sure the same responder is available
- 4.Open the New Incident Panel
- 5.Indicate the incident location on the map and the address should populate
- 6.Enter an incident description
- 7.Select the “Broadcast Alert” option
- 8.Create the Incident

If you followed these directions exactly, your responder should expect to see this sequence of messages:
